FIRE REGULATIONS
(Please also read more extensive conditions of hire)

The fire safety responsibilities of those leasing the building or part of need to be clearly established as part of the contract of hire.

It is an important part of the fire regulations that someone accepts the legal responsibilities for the fire regulations. The responsible person will need to take account of their lack of familiarity with the layout of the premises, the fire safety provisions and the duties of other responsible persons within the premises

No candles or naked flames are allowed anywhere in the building. There are emergency procedures and fire exits highlighted throughout the building. It is the client's responsibility to acquaint themselves with fire and other safety regulations and to inform all guests of emergency evacuation procedures.

The entrance hall and staircase enclosure form the only means of escape from the upper floors and must be kept clear of obstructions and combustible materials

Fire alarms are situated:

- in the front hall to the left of the main door
- on the landing just outside the Assembly Room

Fire extinguishers are situated:

- in the front hall to the left of the main door
- in the Assistant Town Clerk's Office
- in the lobby between the Mayor's Parlour and the front hall
- on the mezzanine outside the ladies' toilet
- on the landing just outside the Assembly Rooms
- in the kitchen (plus fire blanket)
- in the cellar

In case of fire:

On hearing the fire alarm, all must leave the building as quickly as possible. The Town Hall fire alarm automatically alerts the Fire Station. Fire Exits are clearly labelled in all rooms. Hirers should make themselves aware of where the fire exits are and inform attendees.

Exit from the upper floors is by the main stairs and the door on to Market Street.

Exit from the Mayor's Parlour is by the main doors (quick release lock) to the Town Square.

The Fire Assembly point is outside the Town Hall on the Main Town Square flagstones.
